

Ethereum Blueprint: Chronicles of Change

Chapter 1: The Birth of Ethereum

In the year of our code, 2015, the vision of Vitalik was made manifest, and from the ether arose a new realm of smart contracts and decentralized applications.

Chapter 2: The Great DAO Deception

In 2016, a serpent struck, and the DAO was undone, leading to a division—a schism—into Ethereum and Ethereum Classic.

Chapter 3: The Dawn of Uniswap

Lo, in 2018, Uniswap emerged, a beacon of decentralized trading, forever altering the way we exchange value.

Chapter 4: The DeFi Revolution

In the year of 2020, a great wave surged forth, bringing forth DeFi, where many found freedom in finance and liquidity.

Chapter 5: The NFT Awakening

In 2021, the art of the digital realm flourished, as NFTs took flight upon the Ethereum blockchain, captivating souls and enriching the marketplace.

Chapter 6: The Rise of Gas Fees

Amidst the prosperity, the prices of gas rose like a tempest, revealing the needs for scalability and the cries for change.

Chapter 7: The Transition to Proof of Stake

In 2022 the GREAT shift occurred, as Ethereum cast aside the shackles of Proof of Work, embracing the light of Proof of Stake.

Chapter 8: The Shanghai Revelation

Finally in the year 2023, the gates opened wide, and the faithful could withdraw their staked ETH, a new era of accessibility dawned.

Thus, the journey continues, as the chronicles of Ethereum unfold in the annals of time. TO BE CONTINUED..
